DER FORSCHUNG | DER LEHRE | DER BILDUNG

## **International Cooperation Projects / Cooperation Agreements Self-Disclosure Form**

For more information see the in-depth review [website](#).

### **General information**

Partner institution(s), city, country:

Project head at Universität Hamburg, faculty:

### **Project-specific information**

1. Name of project or measure

2. Institutional level [faculty, department, institute]

3. Duration [if applicable, duration of previous agreements]

4. Goals/content of cooperation

5. Further participants/contacts including information about subject areas at Universität Hamburg

6. Participants/contacts including subject areas at partner institution

**Detailed information/questions on the proposed cooperation**

1. Describe benefits for Universität Hamburg and for the subject area?

2. Are the results of the cooperation expected to be valuable scientifically and/or economically for those involved at Universität Hamburg?

3(a). Are there possible limitations to academic freedom, violations of human rights, or political influence/intervention to be expected from the partner institution(s) or third parties? If yes, please describe.

3(b). Describe planned measures to protect academic freedom and human rights and to prevent political influence or interference?

4. Describe the legal conditions in place to ensure the mutual usefulness of the research cooperation and its findings (e.g., access to and use of research data, copyright, or commercial rights to accessible research data; publication rights). Have agreements been made regarding international standard publication procedures?

5. Describe potential elements of the cooperation that touch upon security-relevant research and/or aspects of dual use? What measures will be taken to prevent abuse?

6. Is the economic exploitation of findings planned? What kind of agreements are in place between the partners (if applicable, in the future)? To protect intellectual property, have clear contractual agreements been made for Universität Hamburg outlining the goals, handling, and, if applicable, possibilities for use of findings from the cooperation?

7. What is your concept for excluding access by the partner institution to knowledge, procedures, or technologies outside the scope of the agreed-upon cooperation—both with regard to the exchange of materials and specialist information and to stays at Universität Hamburg?

8. What measures will be taken  
(a) to prevent scientific espionage?

(b) to prevent cyber abuse?

### **Important information on customs and export checks**

For the purpose of a sound and serious assessment related to export reporting obligations and prohibitions, staff responsible for customs and export control have provided an export control checklist. If there are security-relevant or dual-use aspects to the cooperation agreement (see 5.), complete the checklist and return this as a PDF with the self-disclosure. Be aware that the staff responsible may in some cases request that you submit the checklist if they deem it relevant. Contact [zoll@uni-hamburg.de](mailto:zoll@uni-hamburg.de) if you have questions about the checklist on export control.
